Spider-Man Scales Changi Airport Control Tower

In a rare sight at Changi Airport, comic super-hero, "Spider-Man", scaled the airport's control tower today. Organised by the Civil Aviation Authority of Singapore (CAAS), the display by "Spider-Man" is the first-ever stunt performance to take place at the 80-metre high control tower.

The stunt was organised in conjunction with special performances by Spider-Man and other characters from the upcoming movie, "Spider-Man 2" for travellers who are waiting to catch their flights in transit at Changi.
