## **Changi Airport Launches Shopping and Dining @ Terminal 3 Public Area**

Singapore Changi Airport celebrated the launch of shopping and dining at Terminal 3's (T3) public area today. The launch was officiated by Mr Lim Kim Choon, Director-General and Chief Executive Officer, Civil Aviation Authority of Singapore (CAAS). T3's public area features some 60 retail and food and beverage (F&B) outlets over 8,600 sqm - the largest dedicated retail and F&B space in the public areas among Changi Airport's terminals.

The extensive shopping and dining zones at T3's public area means visitors to the airport need not be travellers to enjoy the shopping and dining experience at the new terminal. Shopping and dining outlets are located at two dedicated areas, namely "B2 Mall @ T3" located at Basement 2 and "3-Top" on Levels 3 and 4. Visitors can also enjoy late night shopping and dining every night as the retail outlets are open till 11pm daily, while some dining outlets are open 24-hours.

Mr Lim said, "Though an airport is primarily for travellers, many Singaporeans, especially those living in the eastern part of the island, visit the airport to dine and relax on weekends. We hope these visitors will continue to enjoy shopping and dining at Changi Airport, in particular, the unique retail and F&B experience at Terminal 3's public area."

In conjunction with the launch, a shopping promotion will run exclusively in the public areas of T3 from 1 to 30 April. During this promotion, 30 people will win an all-expenses paid trip to Beijing to watch the upcoming Beijing 2008 Olympic Games. Shoppers just need to charge a minimum of \$30 in a single receipt to Visa or spend a minimum of \$60 in cash. This promotion is being held in collaboration with Visa.

T3 is a seven-storey 380,000 sqm building with three basement and four above ground levels. It adds a capacity of 22 million passengers per annum to Changi Airport, bringing the airport's total annual capability to about 70 million passengers. Changi Airport's total retail and F&B space amounts to 48,000 sqm with about 230 retail and over 110 food & beverage outlets.
